

Environmental Policy

Gas Advisory Services prides itself on good relationships with the public, authorities, clients, subcontractors, suppliers and other interested parties with whom it comes into contact.

Gas Advisory supports a great many groups in society via initiatives and employee involvement and through its business activities. Internally, the Company enjoys co-operation and support between its employees. The Company provides professional management and professional services concerned with the general improvement of the built environment.

The Company seeks to continue to prosper in business with existing and future clients while supporting its employees and their families. The Company aims to make a reasonable return from its operations without becoming involved in unpleasantness, offence or environmental degradation. It is committed to operating in a manner that is both professional and ethical while staying aware of its social and environmental responsibilities.

This statement is intended to promote and achieve protection and enhancement of the natural environment while improving and maintaining the built environment. A director is responsible for the implementation of the Company's environmental statement.

Regular monitoring of our environmental performance will be made and progress towards our goals will be reported upon. Specifically we will be measuring our performance in five key target areas, namely:

- Waste
- Energy management

- Environmental awareness training
- Vehicle emissions
- Infringement of environmental regulations

Gas Advisory Services is committed to conducting its business in a manner that is both professional and ethical whilst at all times paying particular attention to its environmental responsibilities.

These responsibilities will be discharged by implementing the following:

- Strict compliance with all relevant legal requirements, codes of practice and regulations
- The organisation of our operations in order to minimise pollution and disturbance to our neighbours and the general public
- The efficient use of materials and resources with particular regard to the long term sustainability of consumable items
- The establishment and maintenance of management structures within our Company with specific responsibility for the implementation of this environmental statement
- The establishment of targets to measure the continuous improvement in our environmental performance in key areas
- Regular management reviews of the content and implementation of environmental statement with the objective of achieving continuous improvement in performance through the ongoing establishment of best practice

We are committed towards environmental protection and improved performance. The objectives set out in this statement cannot be met effectively without the full co-operation of our staff, our clients and other business associates. Such co-operation is required from all Gas Advisory Services personnel and requested from all those with whom we interact.
